Hi Jenn,

Yes I still have my notes and technical papers.

Subject: Lab Notes

Good Morning,

I am prosecuting a 2001 drug case where the defendant had been in default for 9 years. You were the chemist who analyzed the drugs. I was wondering if you would still have lab notes/case notes on this.

The lab number is [REDACTED]

The names are [REDACTED] and the drugs were tested on June 4, 2001.

Can you let me know if you still have anything? And if you do, would you be able to mail me the case file?

Thank you so much,

Jenn Kunsch
